

SCORPIUS 400 BLUE

NORDIC LIGHTS® Scorpius 400 Blue is a state-of-theart blue crop sprayer light and the latest addition to our successful Scorpius work light family. Originally developed for the mining industry, the standards for this work light are set high. Adapted to the agricultural industry, and designed specifically for crop sprayers, the Scorpius 400 Blue LED pencil beam illuminates the boom, the nozzles and the spray pattern. It has an excellent luminous intensity of 30 000 candela, making it the best blue pencil beam you will find on the market.

The Scorpius 400 Blue work light offers a long lifetime and high operational safety with minimum maintenance. The mechanical, thermal and corrosion resistance is excellent thanks to its Grilamid® lens and new strengthened aluminium housing. With a vibration resistance of up to 15.3 Grms and shock resistance of 60 G, it is made to withstand tough conditions.

Not all products are available in all markets. During continuous improvement specifications and design are changing. All values are nominal values. Illustrations do not necessarily show the design of every version and some features are version specific. The lumens output varies depending on lens colour.
